The Little Glass Slipper

Cinderella

The Little Glass Slipper

Once upon a time, on an enchanted summer evening... Cinderella was born into a family of love and kindness. Her mom was magical and showed Cinderella that by planting “seeds of possibility” all things are possible! Every summer Cinderella grew and grew as the dragonflies flew and the the seeds they planted together sprouted first as a little seedling, then into a great tree of strength and beauty... weathering the seasons and the storms of time with grace - through the cold of winter, the blossoms of spring, the heat of summer, and the golden leaves of autumn. In time, Cinderella was no longer a child, and visited the tree all alone. One especially cold, dark winter, her mom was gone with the autumn leaves. It was the harshest winter of all as the tree stood tall under the Winter Sun.

Cinderella now had a new family...
